EDUCATION

University of the Immaculate Conception
Bachelor of Science in Information Technology

Relevant Coursework: Database Management, Software Engineering, Web Development, Mobile Development, Systems Analysis and Design, Cloud Computing Fundamentals, AI - System Integration, Project Management, Organizational Leadership.

Technical Stack:

- **Languages & Frameworks:** HTML, CSS, JavaScript, Java, PHP, Laravel (Livewire), React (JS/TS), Express.js
- **Databases:** MySQL, MongoDB
- **Stacks:** MERN Stack (MongoDB, Express, React, Node), LAMP Stack
- **Other:** Server Administration

Academic Project:

- **IP Management System** - A Progressive Web Application (PWA) developed to streamline the Intellectual Property (IP) protection application process for the Innovation and Technology Support Office (ITSO) at the University of the Immaculate Conception (developed for System Architecture and Design, Software Engineering, and Technopreneurship 1).
- **RPIC Research Management System -** A PWA designed to facilitate research paper defense scheduling, document storage, and information access for publications and seminars, ensuring compliance with PAASCU requirements (developed for Software Engineering).
- **Anime Dojo Game -** An interactive gaming PWA for anime enthusiasts, integrated with trained AI models to predict outcomes and provide user insights (developed for Machine Learning).
- **Guide to Loratadine (Allerta) -** A mobile application designed to educate users on the mechanism of action and effects of Loratadine within the body (developed for IT Elective).

- **NeuroZen -** A mobile application prototype focused on stress management, featuring a simulated marketplace for wellness products (developed for IT Elective).
- **TUN-AN Landing Page for Technopreneurship Company -** A corporate landing page featuring an integrated email system to handle customer service inquiries, developed for a Technopreneurship venture.
- **Clinic-Connect Pediatric Care Appointment System -** A PWA designed to streamline patient booking, pediatric consultations, and medication purchasing.
- **Ayo-ayo AI Powered Smart Green Computing & E-Waste Solutions -** An AI-integrated mobile application that promotes e-waste mitigation and knowledge sharing through recycling, donating, and selling features.
- **Publication Materials for the Public Health Research Forum 2024 -** Designed publication materials for the University of the Immaculate Conception's Public Health Research Forum, held in December 2024.

Non-Academic/Personal Project

- **House Rental System -** A Progressive Web Application designed to facilitate the management of house rentals and tenant tracking.
- **UIC Digital Christmas Tree -** A web application designed to commemorate 2025 university events, featuring an interactive tree for hanging digital ornaments and sharing 2026 New Year's resolutions.
- **My Personal Portfolio -** A personal web application showcasing my professional background, projects, and services offered.
- **Weather Forecasting Mobile Application using NASA Data for the Hikers and Adventurers** - An AI-integrated mobile application utilizing NASA data to provide weather safety insights for hikers and adventurers. Developed for the international **NASA Space Apps Challenge 2025**.

LEADERSHIP & OTHER AFFILIATIONS

VIRTUAL INITIATIVE FOR BUILDING ENGAGEMENT (UIC - VIBE) CLUB

Club Mayor | A.Y. 2023 - 2024

- Facilitated Various Seminars such as
  - News and Feature Writing Seminar
  - Workshop/Seminar for Filmmaking and Video Production

NSTP - Civic Welfare Training Service| [University Address]

UIC- CCS Leader/Spearheader | A.Y. 2023 - 2024

- Designed and facilitated computer literacy workshops entitled "DIGISKWELA: Building

Knowledge About Digital Literacy and Game Development" for 54 grade 6 students, equipping them with basic skills in internet navigation, productivity tools, and online safety.

- Coordinated with fellow volunteers to deliver seminars on responsible digital citizenship, encouraging proper use of social media and technology for learning and community growth.
- Spearheading 3 Community Extension Project for the College of Computer Studies and 3 Non-Academic Clubs (GDSC-UIC, SITES, UIC-VIBE) in organizing community outreach activities, including donation drives and school support programs, fostering stronger ties between the university and the adopted community.
- Lead facilitators ensuring activity plans, schedules, safety of the children, and teaching materials were prepared and effectively delivered.
- Collected feedback from students and teachers to evaluate program effectiveness and recommend improvements for future civic engagement initiatives.

GOOGLE DEVELOPER GROUPS ON CAMPUS - UIC

Vice Mayor | A.Y. 2025 - 2026

- Co-leader of the club having the responsibility to plan and create seminars/workshops along with the Lead.
- Responsible for creating activity plans, budget requests, and budget liquidation.
- Participated in the Ignacian Marian Leadership Training
